

Thomas

Age: 14

Job: Middle School Student

Use for App: Review at home for material that he doesn't understand in class or for homework. Also a good study tool for quizzes. His teacher recommended it to his parents.

Lyrica

Age: 37

Job: Software salesperson

Use for App: Her son who is in middle school has been asking her frequently for help with his math homework. She wants to relearn some of the material that she doesn't remember to help her son while also refreshing what she learned at that age.

Nimai

Age: 68

Job: Retired

Use for App: After retiring and having a lot of free time available, relearning math concepts will help keep his mind sharp while giving him a new, engaging activity to do on a regular basis.
